

25<sup>th</sup> March 2020

Dear Member Committees,

**RE: IMPORTANT COVID-19 UPDATE**

The 4WDQld Management Committee has been diligently monitoring the Corona Virus Government updates and how these would affect the operation of our member clubs (particularly regarding non essential travel and group gatherings)

We have also received correspondence from AON (who provides our group insurance policies) that as the Corona Virus is a Pandemic they will not cover members or visitors who contract this on club trips / events. They have also stated that based on Government directives that insurance for all club trips and committees will more than likely be compromised.

Based on these two directives we wish to inform clubs that ALL TRIPS (both social and driving) and face to face MEETINGS be IMMEDIATELY SUSPENDED until further notice.

It is important that we all follow this directive for the safety of your friends and fellow members.

Due to government imposed social isolation and travel (essential only) constraints currently in place, as well as insurance requirements, all training carried out by 4wd Qld clubs must be immediately suspended till further notice.

If any clubs have training courses in progress, any continuation (theory or practical) must meet the above constraints, be subject to detailed risk assessment in relation to COVID-19, and be endorsed by 4wd Qld management (contact training co-ordinator Tony Collins for further advice).

Please note that ALL 4WDQld MEETINGS will now be conducted by ZOOM. Every club is encouraged to have their delegate attend these non face to face meetings. If you require assistance, then Miles is more than happy to help out.

Our meeting this Thursday night is proceeding via zoom. At this meeting we will be discussing our options regarding insurance so it's imperative that your delegates attend so your club can have its say.

4WDQLD is also offering all clubs the opportunity to use our zoom video conferencing for all your meetings to help clubs continue to operate at a base level and allow committees to still function.

Keep safe all my fellow 4WDDrivers and follow the Government guidelines for both you and your family's safety.

Kind regards,

Shane Rose  
4WD QLD President
